- Great investors deserve one destination.
- Investor News Channel connects all three.

LET'S BUILD THE FUTURE OF BUSINESS TELEVISION

Become a Founding Content Partner

- ✓ Global Distribution
- ✓ Advertising Revenue Share
- ✓ Executive Exposure
- ✓ New Audience Growth
- ✓ Zero Distribution Costs

YOUR CONTENT. OUR DISTRIBUTION. SHARED SUCCESS.

Investor News Channel is creating a new category of business media, where premium financial programming, corporate storytelling, and investment intelligence come together on a global FAST platform. By partnering with leading publishers, creators, analysts, and public companies, we're building a destination that rewards great content with recurring advertising revenue while delivering investors a richer, more engaging viewing experience.

One strategic enhancement

To attract top-tier publishers and content creators, consider positioning the economics as a **Founding Partner Program**:

Founding Partners: 25% lifetime revenue share on their programming.

Future Partners: Standard revenue share (for example, 15–20%).

That creates scarcity and urgency without changing the long-term business model. It also rewards early adopters who help build the network's programming library and audience.

KEEP YOUR CONTENT. KEEP YOUR MOMENTUM. LET OUR PLATFORM DO THE REST.
